Subject: Tribal well number - Pavillion
=====

According to the WOGCC spreadsheet that Gary Strong put together there are 88 tribal wells and 57 fee wells. These are just producing and or shut in wells so it does not include approximately 22 wells that are already plugged and abandoned. On the WOGCC website the 2012 Field report for Pavillion lists a total of 141 wells with 109 producing and 32 shut in so their records are bit off (4 wells).
